THE SECOND REGIMENT HAS GONE SOUTH.

Washington, May 26.—To an in-
terview this morning with a promi-
nent senator the president outlined
the campaign as follows:

Porto Rico will be taken at once.
For that purpose Admiral Sampson
will bombard and reduce San Juan
and will provide a landing place for
American troops. While the presi-
dent did not say it is known that
30,000 troops will be sent as an army
of occupation for Porto Rico.

The president also said that the
invasion of Cuba will be pushed en-
ergetically from now on. And it is
hoped to have the island in our pos-
session in a few weeks.

WHERE THEY WILL GO.

Washington, May 26.—The fol-
lowing eventual disposition of troops
has, it is said, been determined upon:
For Cuba, 100,000 men.
For the Philippines, 25,000.
For Porto Rico, 25,000.
For home defense, 10,000.

GEN. BROOKE WILL LEAD.

Washington, May 26.—General
Brooke will command the expedition
to Porto Rico.

AFTER A TORPEDO BOAT.

Washington, May 26.—Sampson's
squadrons are chasing the Spanish tor-
pedo boat Terror. The Scouts are the
fleet Yale and Minneapolis; the
Terror left Martinique yesterday. It
is believed that the chase will end
this week by the capture of the Ter-
ror.

FRIGHTENED CANARIES.

Madrid, May 26.—The Canary
Islands are panic stricken over the
report that Sampson's fleet is ex-
pected there in a few days. The
people are fleeing to the interior of
the islands, the harbors are being
mined, and the marine lights are all
put out at night.

MORE KENTUCKIANS WANTED.

Washington, May 26.—Ken-
tucky's quota of the 75,000 volun-
teers called for yesterday will be
2,045. They will be enlisted and
examined as rapidly as it is possible
to do so.

Secretary Alger says that the
additional volunteers will not be
recruited from the National Guard,
but that the enlistment will be open

SECOND REGIMENT GONE.

Lexington, May 26.—The Second
Regiment of Kentucky volunteers,
under Col. Ozier, left here yesterday for Chickasawga.

SITUATION AT MANILA.

Hongkong, May 26.—The Japan-
ese cruiser Akitsushima has arrived
from Manila bearing dispatches from
Admiral Dewey and Consul General
Williams to United States Consul
Wildman.

Manila is in a state of anarchy.
Food is so scarce that beef is \$3 a
pound and potatoes 50 cents a pound.
The people are eating horses.

A second barricade of sunken
schooners has been placed across the
river Prag.
General Aguinaldo, the insurgent
chief, arrived amid the greatest en-
thusiasm. Admiral Dewey gave him
two field pieces and 500 Mauser
rifles.

A FATAL MOVE.

Washington, May 26.—The end of
the Spanish fleet is in sight. Cer-
vera dare not attempt to steam out
of the harbor of Santiago. If he
does make the attempt the battle-
ships and monitors of the American
fleet with their heavy guns will sink
the Spanish vessels one by one as
they pass out of the channel into the
open sea.

The channel is so narrow—less
than 100 yards wide at the entrance
—that but one ship can pass at a
time. The monitor Puritan, the
dynamite cruiser Vauvuis, or either
one of our big battleships would be
able to annihilate the entire Spanish
fleet should it attempt to run the
blockade of the harbor entrance and
escape to the sea.

It is agreed that the Spaniards
have committed suicide by bottling
their ships up in Santiago. A block-
ade line, of course, been established,
but it is believed to be the intention
of Admiral Sampson to move into
the harbor and destroy the Spanish
ships. This is a hazardous under-
taking, but its success means honor,
fame and promotion for the com-
mander who accomplishes the task.

Naval officers believe that the
dynamite cruiser Vauvuis can quick-
ly clear the channel of the torpedo
mines that line it, and that the
monitors and battleships can steam
through the entrance into the bay
and destroy the Spaniards as quickly
and successfully as Dewey blew up
the enemy at Manila.

FIFTY LIVES LOST.

London, May 26.—It is reported
here that an India steamship was
sunk in a collision near Calcutta
today and that 55 passengers and
crew perished.

Capt. Davis and Joe Smith Still
Sick—Co. K Has New and
Batter Quarters.

Frankfort, Ky., May 26.—Gov-
ernor Bradley today appointed Hon.
D. H. Murray, of Cloverport, major
in the regiment to be raised by Hon.
D. G. Colton. This was done be-
cause Murray had a brother who was
killed by the Spaniards.

Lexington, May 26.—Capt. Davis,
of the Paducah company, is still sick,
as is also Private Joe Smith, who is
suffering from pneumonia. Smith's
mother and brother are here.

The Paducah company has been
moved to new quarters, vacated by
the Lebanon company, and is much
more pleasantly situated.

BALTIMORE DAMAGED.

London, May 26.—It is reported
here that the cruiser Balti-
more one of Admiral Dewey's ships,
has been badly disabled by an explo-
sion on board.

MEN OF MODERATE MEANS

Need no longer regard tailor-made clothes with fear and trembling.
Dalton now makes clothes in his own shop, here at home—makes the
clothes right, makes the bill right. It costs but a trifle more to wear
garments that fit than those that a most fit. The acme of style and
workmanship is ours. Drop in at 333 Broadway and see about that
belated spring suit. You'll be glad you waited—t'll cost you so little.

DALTON, THE TAILOR

A GRAVE MISTAKE.

Lord Woolsey Says Untrained
Men Should Not Go to Cuba.

London, May 26.—Lord Woolsey,
the commander-in-chief of the British
army in conversation with an Ameri-
can said:

"The United States would make a
mistake in attempting to invade Cu-
ba with volunteers who are not fully
drilled and disciplined. If that is
done the United States might expect
heavy reverses when those troops en-
countered the Spanish troops on land.
It would be a grave error to under-
estimate the strength of the adver-
sary of the American troops. I
would regret to see the Americans
even temporarily beaten, as all my
sympathies are with them."

Continuing, Lord Woolsey said:
"It is fortunate for the United States
that this war is not with a first-class
power, for it is evident that that in
such an encounter they would be
badly beaten at the beginning,
though I believe the Americans able
to defeat any nation in the long run."

NO FEAR NOW.

New York, May 26.—The steam-
ship Atlantic sailed for Colon yester-
day. Shipping men believe that
this is good evidence that the Span-
ish fleet which has recently roamed
the Caribbean sea is safely shut up
under the American guns at San-
tiago, and that the Spanish-Ameri-
can line has received advice to this
effect from the government.

THE SITUATION.

Admiral Cervera is still bottled up
in Santiago harbor by Commodore
Sampson. It is the purpose of our
fleet to open fire on the batteries
guarding the entrance to the harbor
and silence them. If this does not
draw the enemy out it will at least
enable the American fleet to move
close in shore and perhaps may de-
stroy the mechanism for touching off
the three lines of torpedoes which are
in the harbor.

Admiral Sampson is not before
Santiago. He is on the north coast
of Cuba, ready to convey troops for
the invasion and to bombard Ha-
vana when the attack begins. He is
also in position to protect cities on
the American coast.

Everything indicates an early be-
ginning of the invasion of Cuba in
June. The Oregon will join the fleet in
front of Havana as soon as she is
coaled and provisioned.

It is believed that the last cable
connection between Cuba and Mani-
la was cut yesterday.

A dispatch published at Madrid
gives details of the arrival of Ad-
miral Cervera's fleet at Santiago May
15 and shows that he is still in San-
tiago harbor.

The steamships Australia, City of
Peking and City of Sydney sailed
from San Francisco yesterday, car-
rying 2,500 soldiers, the first divi-
sion of the Philippine army of occupa-
tion. The ships are due at Manila
about June 20.

Admiral Dewey has urged
that if riots occur at Manila or if a
bombardment should be necessary,
all the foreigners should assem-
ble immediately in the business
quarter and protection given them
by the marines from the foreign
cruisers. Admiral Dewey has given
notice that he considers Hilo and
Cebu blockaded, and has ordered all
sailing vessels to leave Manila bay.
The Spaniards are arming the natives,
but the English think they will use
the weapons against Spaul.

CUBA THE MAIN POINT.

Washington, May 26.—It is be-
lieved here that the Porto Rico ex-
pedition is merely as a cover to the
main point which is Cuba. Landings
will be on Cuba next week in half a
dozen places.

Admiral Sampson is now off Ha-
vana ready to begin the bombard-
ment at a moment's notice.

PORTO RICO FIRST.

Washington, May 26.—Secretary
Long still denies that the plans for
the Cuban invasion have been com-
pleted. He says that the council of
war has decided that the occupation
of Porto Rico should come first.

REMEMBERING THE MAINE.

Washington, D. C., May 26.—
Since the war began the Maine disas-
ter, which was its immediate cause,
has rather dropped out of sight, but
there is a little band of women in
this city who have done much to
relieve the sufferings of the survivors
and the families of the men who were
killed in Havana harbor.

This band consists of Mrs. Long,
wife of the secretary of the navy;
Mrs. A. S. Crowninshield, Mrs.
Edwin Stuart, Mrs. Richardson
Clever, Mrs. Charles O'Neil, Mrs.
W. K. Van Rye, Mrs. Charles
Heywood, Mrs. S. Clapp, and Miss
Benham, daughter of Rear Admiral
Benham, retired.

As a result of their efforts \$27,-
767 has been collected and \$10,000
distributed. The wounded survivors
were cared for in hospitals and in
advance of the action taken by con-
gress allotments were made to meet
the expenses of the families of those
killed in the wreck.

It is proposed to continue these
allotments each month as long as the
fund lasts.

HAWAII'S POSITION.

Washington, May 26.—The Philip-
pine expedition is now off in dead
earnest. The sending of these ships
will effect the Hawaiian question
vitality. Like the Charleston the
transport must stop at Hawaii to re-
plenish their coal bunkers from the
great heaps of coal that Consul Gen.
Hayward has been piling up for
months past. If the Hawaiians let
us take this coal without the pretext
that we are using it to make our way
to our nearest home port, as is re-
quired by international law in such
cases, they will stand convicted of a
gross breach of neutrality that in the
eyes of the law of nations allies them
with the United States in hostility to
Spain.

The taking of coal by the Ameri-
can ships at Hawaii to make an ex-
tensive campaign against the Span-
ish possessions it is believed here will
result in compelling the United States
either to assume a protectorate over
the islands or to annex them.

Mr. George C. Power, of Chicago,

Accompanying Mr. Power is Mr.

KISSED THE WRONG WOMAN
This Led to the Construction of a Ladies' Gallery.

Previous to the construction of the ladies' gallery in the house of commons, says Mrs. Finnick Miller, the only spot from which any lady could hear the debates was from the ventral later opening in the roof.

Elizabeth Fry was the first woman to be allowed to go up there. The Quaker members of the parliament procured from the speaker a permit for her to be there during the debates on prison reform, in their votes on which they were always guided by her experienced advice. Other ladies fol-

Well, one day Feargus O'Connell, son of the "liberator," was going to make a speech, which he intended should be a very fine one, and so (like a good husband, caring more for the verdict of the critic on the heart than for any other) arranged for his wife to be in the ventilator-hole to listen.

As soon as he had done speaking he rushed upstairs, and, entering the dark place, saw, as he supposed, his wife turn to go to him.

He threw his arms around her and kissed her warmly as he said: "Well, my dear, what did she say of 'Old Feargus'?"

But it so chanced that his wicked wife had not come, and that the wife of an influential minister, who declared to her husband that such mistakes must be prevented in the future by making a proper ladies' gallery.

A BIG SUM.

Indians Have Little Notion of the Large Values

It is not so easy now to cheat the Indians as in the days when they bartered their lands for glass beads and worthless trinkets. They are not pretty sharp in making ordinary trades which come up in their daily life; nevertheless, it is true that when it comes to a question of large sums of money—thousands or even hundreds of dollars—the average Indian is bewildered at the mere idea of so much wealth. An incident which happened not long ago in New Mexico illustrates this point. An Indian was

demanded \$3,000 as an indemnity. The company was willing to settle, and sent an agent who knifed the Indians thoroughly. He took with him several bags of Mexican silver dollars, which pass freely among Indians in that part of the country. Sitting down gravely with the aggrieved widow, he began counting out the big, shining dollars one by one. When the pile had reached 100 she glanced inquiringly at the squaw, but she shook her head firmly. The agent went on with his counting, and at the end of another 100 he looked up again. She repeated the negative shake of her head, but her eyes be-

ver. At 300 the agent paused a little longer. The squaw still held out, though with unmistakable signs of weakening. The agent counted more slowly and impressively, and when he reached 348, the squaw stopped in his hand. "Heap plenty," she said, with decision; and, gathering up the silver, she accepted in perfect contentment this settlement of her claim for \$3,000.—*Golden Days.*

regard ideas into everything. One invention is a kettle with a corrugated bottom which will, it is claimed, heat water much more quickly because it has more surface. In view of the fact that at least half of the time the kettles may stand upon the top of the stove, this idea does not seem feasible as in this case there would be arches all through under the bottom, and the kettle would scarcely heat at all.

THE STUPID BOY.
Not Always as Stupid as He Looks.
Often Stupidly Judged.

Here is a lesson and perhaps a encouragement for parents who have stupid boys for no doubt there are few stupid boys in the world, even amid the lights of this closing century. It is said that when Isaac Barrow, one of the greatest of English preachers, was a boy his father thought him very stupid, and used to say if it pleased God to take from him any of his children he hoped it would be Isaac. But Isaac was not taken before he became one of the greatest preachers of England, and a professor

the University of Cambridge and the teacher of Sir Isaac Newton. It is necessary to remember that a boy is not necessarily stupid because he is prone to day-dream. He may be stupid because of the fire of intellect that is smothered slowly; it may be so, too, if he is smothered under a heap of useless knowledge, suppressed, unused, and not always used up like a kerosene lamp. It may come like the rising of the tide to a man who pleads, slowly, stonily, and with a certain air of self-righteousness, "I do not get on." Do not be discouraged by the apparent stupidity of the boy or girl. Give him or her a fair chance. The first movements of the great sea-going vessel are apparently awkward and in-balance as she tries to turn

graceful, splendid movements as it plays the ocean or weathers the storm.

Moreover, a stupid judgment of day is damaging to him. To call him a dunce, a blockhead, an idiot, reverse as well as unkind. It may discourage him, may for a long time paralyze his efforts, may even permanently affect his character. Give to a stupid boy a chance, and it will be known ere long whether he is really or only apparently stupid.—Baptist Courier.

TO SAVE HIS JACK.

An effort is being made to have the sentence of Will Tuit, the negro wife murderer (to hang June 17), commuted to life imprisonment. It is claimed in a petition sent to the governor that Tuit did not have a fair trial. The people here will be surprised that such a statement is made, as it is generally conceded that he had as fair a trial as one could have, and that the sentence is a just one in every particular. — Mayfield Monitor.

THEY ELOPED.

But They Were Outwitted By the Old Folks—Were Too Young.

Adventure of a Young Couple From Mechanicsburg Today. Quite a Romantic Affair.

There was considerable excitement at the wharf this morning about 10 o'clock. A young man and a young lady appeared and engaged rooms on the Dick Fowler for Mechanicsburg. They walked about for a short while, but seemed to be very nervous, and finally a brother-in-law of the young lady went to the ferry boat and asked Capt. Owen if it would leave before the Fowler. It was told that it would, and the couple forthwith boarded it and got off at Brooklyn.

Soon after the ferry boat had gone, however, the young man's mother and aunt arrived on the scene, and learning that the couple had gone on to Brooklyn to catch the Fowler there, they took passage to Mechanicsburg, and were aboard when the couple got on at Brooklyn.

The young man was Roy Scott, of Mechanicsburg, and the girl Miss Della Wicks, of the same place. They eloped to elude parents. It was the second elopement of the young lady, according to reports, she having eloped with another young man some time since, but was intercepted by parents.

The young people, when they boarded the boat at Brooklyn, were no doubt surprised to see the old folks, and what then transpired is only a matter of conjecture. They went on to Mechanicsburg, but were not married, according to a telegram from the St. Louis correspondent there, who and the ceremony was not permitted to take place.

When the news of the elopement became known in Mechanicsburg there was more of a stir than had been perceptible in the peaceful little suburb for some time, on account of the young people being so well known. There have been several weddings in the family of the young lady recently.

The young man's relatives objected to his marriage because he is only 18 or 19 years of age, and his intended bride is about the same age. He is a son of Mr. Frank Scott, the machinist.

The young people were brought in this afternoon, being in charge of Officer Shoemaker, who went down on the Fowler. The county clerk at Mechanicsburg had been notified by telegraph not to issue the license when they reached there.

POLICE COURT.

Albert McKinley Acquitted—Other Cases of Slight Interest.

The case against Albert McKinley, colored, charged with stealing \$11.50 from the Moss, colored, was this morning dismissed. There was no evidence to establish the guilt of the defendant, and he was released. He is a porter at the New Richmond.

There was a case against Lizzie Jones and Florence Dodd for fighting. They fell out over language one used towards the other, and both fought to a finish, and afterwards renewed the fight. They were fined \$5 and \$10, and the Jones woman, who is in a delicate condition, will likely be released upon recommendation of the city physician.

A case against Mr. Courtney Long, charged with allowing his horse to run at large, was continued in order to get the evidence of the mayor, who was absent.

THOSE DIVERS CLUBS.

Vote Unusual Honor to Our Congressman Wheeler.

The Toothpick Shoe club, of Frazzled Edge, Crittenden county, the Diamond Shirt Stud club, of Cow Leap Creek, Livingston county, and the Catnip Tea club, of Smithland, held a joint meeting and resolved that our Adonis is first in war, first in peace and first in the hearts of his countrymen. A big parade was then given on Front street, in Smithland, after which the entire membership of four got in a canoe and went up the peaceful Cumberland. Nixie Smarten then took a Pullman sleeper to "Antioch, sweetly dreaming of My quartet and I." Such carrying on makes the opposition feel like hunting for cover. — Murray Ledger.

CARS DERAILLED.

There was a derailment in the Union Depot yard at noon. The switch engine had a train empty coal cars and when they were crossing the street two of the cars derailed and the track and were wrecked. Several cars were thrown off, but there was little damage to the track.

MADE THE DIVE.

There was another good crowd at the park last night to attend the performance of the Holt, Sherman company. At the conclusion Prof. Led to make his phenomenal dive from the top of an eighty-five foot ladder into a net, and was literally applauded.
